TAYYAB ALI

FRONTEND DEVELOPER

ABOUT ME

I'm Tayyab! A **Front-End Developer** skilled in HTML5, CSS3, and JavaScript, with a focus on building responsive and visually appealing **websites**. Along with my **Front-End** expertise, I've developed a solid understanding of Python and Java, which helps me handle backend tasks and tackle different **programming** challenges. I'm detail-oriented, passionate about solving problems, and stay updated with the latest industry trends to deliver modern, user-focused web solutions.

MY PORTFOLIO

COURSE MANAGEMENT SYSTEM

The Course Management System (CMS) is a **Java** based application using AWT, Swing, and JavaFX. It manages student records with CRUD operations and features smooth animations, a clean user interface, and secure authentication.

AI GENIX HUB

AI Genix Hub is an innovative platform offering advanced AI tools, including a conversational chatbot and a text-to-image generator. Built using **HTML5**, **CSS**, & **JavaScript**.

ASSIST AI

AssistAI is a web application featuring a smooth, minimalist design to enhance user interactivity. Built using HTML5, **CSS3**, JavaScript, and React.js, this template was developed for self-learning purposes, inspired by the Assistify AI design from ThemeForest.

HP PROBOOK LAPTOP

HP ProBook Laptop is an interactive 3D mockup, meticulously developed by referencing my own personal laptop. Built using HTML, CSS, **JavaScript**, & **React.js**, this project is still a work in progress as I continue developing it into a complete 3D Web-Based-Desktop environment.

EDUCATION

• BSc in Software Engineering Technology

Currently pursuing a degree in Bachelor of Science in Software Engineering Technology.

• 1-Year Course in Full Stack Web Development

Mastered Front-End & Back-End development skills.

• Associate Diploma in Software Engineering

Earned an Associate Diploma in Software Engineering, equipped with expertise in software development and engineering solutions.

SKILLS

My focus is on **Front-End** Web Development, while I utilize **Graphic Designing** for project demo's.
